*Chapter 1 of 1*

Something evil is lurking in the dungeons.

Deep in the dungeons, there lurked an evil so dark, so maleficent, that it had no name. It emanated a sinister magnetism which enticed its intended prey – slowly, inevitably, to the bottomless depths of the void. The preferred victims were small and defenceless. It gained enormous satisfaction from splitting a couple, causing misunderstanding and mayhem in the process.

After months of painstaking research of the problem, the bushy-haired young witch finally discovered the solution. With her cloak swirling behind her, she made her way to the dungeons, descended untold flights of stairs, and simply *Evanescoed* the Serial Quotation Mark Kidnapper!
