Someone has been very naughty!

Detention was going to be her worst nightmare realised. The thought of spending an hour with that unforgiving, short-tempered pedant was horrifying. She hadn't committed a major crime. She hadn't hurt anyone, stolen anything, or burned a classroom down. It was so unfair! Why was she being singled out? She knew plenty of others who had escaped reprimand for similar behaviour, time after time. Just because she was pretty, with nicely rounded curves, didn't mean she should be picked on. After all, what was the problem with a little abuse of a few compound sentences? The naughty apprentice comma sulked.

A/N: This story was written for my friend and Comma Guru, ladyinthecloak, who also betaed it.
