I loved you

Chapter 1 of 1

Someone looking back on a relationship and realizing what they thought it was, was actually not what was truly the nature of the relationship.

I loved you. That's hard for me to admit. Because when I think of you now, it makes me sick. Even though I miss you, there's something to be said for what you did to me. And I know you're not even sorry. And now that you're caught, you've put me in a box in the back of your mind and said you're done with me, I don't get any more of your time. And I'm the one who has had to pay for your selfishness and stupid mistakes. But no, this was not a mistake; you knew what you were doing all along. Before I could see what was truly going on, you had me and I was too far gone. And for what, did I turn my back on the ones who truly love me? Just so I could maybe find in you a little bit of something. You convinced me I was safe there, with you, and that I wouldn't be happy unless I was closer to where you are. Well, now I'm farther than where we started. What's the point in hanging on when I know your love for me is gone. Although I see now it was never really there. No, you never actually cared. It was just a part of your trick, to make me think that I fit in your world. But for such a smart girl, I was good at stupid, and you knew it. Just to fill your own selfish desires, you wrapped me around your finger, but you're just a liar. And your decisions cost you nothing, and me almost everything. At least it feels that way. You don't even care; you've made that quite clear.
