Forgotten Death

Chapter 1 of 1

The short story/poem of a girl's death. The abuse and suicide are implied.

she tried too hard
this child of darkness
her lies took over
she destroyed her world
with her unspoken words
her life on the streets
was full of pain
bruises covered her
as she struggled in vain
it continued this way
for days and days
'til there was no part of her life
that hadn't been torn
and in her last night
with her last breath
she cried out
"darkness overtake me

'cuz nothin' else matters now

everything was stolen

my body,heart,and soul

just let me die

let my pain end"
