It's possible to read this story without liking the characters, they were just the ones I had in mind...

So, this is the prequel to "Emptiness", Hermione knows that Blaise will leave her for the dark side and wants to savour the last kiss...

Disclaimer: Not mine, fullstop.

Kiss me

Kiss me one last time

I wanna savour the moment

Kiss me

Kiss me hard

Kiss me sweet

Kiss me rough

Kiss me deep

You've already made your decision

Why don't you talk to me?

We used to share everything

Until now.
You seem to be so desperate
Holding on to me
As if your life was depending on it
Am I only imagining,
Being so desperate myself?
Please...kiss me
For I need something to remember
Apart from the doubts
That start creeping up in the back of my mind.
Kiss me
Kiss me one last time
I wanna savour this moment
I wanna get carried away
Even if the kiss has a bitter flavour to it
You only taste the saltiness of our kiss
You look at my face
Which is by now drowned in tears
Please, don't look at me like that
For I get sucked into these dark abysses.
They are like a drug
I can't focus on anything else
You're held in a wordless state
By the shock and emotions filling you
And I whisper:
"Kiss me, kiss me just this one last time."
Horror emerges slowly your face
You realize that I know
And you flee to the dungeons
Leaving only bitterness behind.

A/N: Thanks to my beta, forgetablelove, though she had some problems sending the corrected version back, she did a great job by telling me how to use proper English^^.

And to all the people out there, who have depressions, or who are down for any reason: don't give up hope that there will come better times!

Cause:

"Hope is the very essence of life. If you have no hope, you might as well be dead."

This is by my dear Envinyatar. And there lays such a truth in this!

It's not an invitation to commit suicide!

I think, that if you just hope, it'll give you the strength to go on and there WILL be better times...

And most people HAVE hope in them, but they must find it in themselves.
