Hermione wanted to wait until marriage

"I can't believe we just did that."

"It's your fault."

"How is it my fault?"

"You said you wanted to wait until marriage."

"You could have just waited."

"Didn't want to wait."

"Then it's your fault."

"K."

"K? Did you just say 'K'?"

"Yes."

"Since when do you say things like, 'K'?"

"Since we just got married."

"Are you going to start speaking in one-syllable words, then?"

"No talk. Mine."

With that, Severus Snape wandlessly Banished both his and Hermione Granger's clothes, shoved her onto the bed, and began to kiss every inch of her body. He looked up at her.

"Now!"

At that, he entered her and began pounding away, slowly at first and then quickening the pace.

In an occurrence that defied reality, both came at the same time.

As Severus rolled off Hermione, sated, she smiled and asked, "So, was that worth Apparating to Las Vegas and getting married?"

"Yesssss..."

A/N: The prompt was from sunny33 – something about us working on our smut skills or some such thing. She's also my beta, so this is all to blame on her.
