*Chapter 1 of 1*

What does he think of Hermione? Companion story to "My Thoughts of Him."

I think of her and wonder if she believes me to be a murderer. I only did what I was told that I had to do. What haunts me at night when I can't sleep? It isn't Dumbledore's dying eyes or his plea.

It's her and the way her eyes lit up when she saw me as I left my office that night. In her eyes, I was a hero going to help the others. In her eyes, I would save them all.

One day she will know the truth and that I was trying to do just that. Hopefully.
