

Not So Different

by TeaOli

Online dating comes to the wizarding world.

Nearly the Same

Chapter 1 of 1

Online dating comes to the wizarding world.

Trying WizardDate.co.uk was Harry's idea, but Hermione drew the line at letting him and Ron write her profile.

"How about: 'Socially awkward optimist in realist's clothing seeks Paulie-Alan-sort to bring out her best'?"

"I don't know..." Harry hedged.

"A bloke'll think you're mental and won't like being compared to another bloke."

Ron grimaced. "Who's this 'Paulie-Alan' anyway?"

"No one," she said. "It's like Pollyanna. From the books?"

"Never heard of them."

"Never mind." Hermione deleted the advert. Soon as the boys were gone, she reposted it.

A response popped up immediately:

Perhaps "the best" lies in working together.
