Morning Mirror

Chapter 1 of 1

A look at the possibilities of tomorrow when today is so bleak.

Transient hues beaming,
Particles of eloquent shades,
Soul-warming reds of your heart,
Brilliant, tepid sunshine yellows,
Submarine pacific blues of the deep,
Terrifying oranges of the holidays.
Radiating through a vivid current,
Glittering urtext of memories,
Dreaming of the silliest daydreams,
Fantasying of alluring utopias,
Conveying the boundless hopes of infinity.
A moment everyday to forget,
A tool to entrench eternal failures,
A moment everyday to ignore.
A tool to fix the sorrows of yesterday,
A route to fill the crumbling dam-
To hold the flood of flowing tears,

A moment to forge away...

A moment to start a new day.
