Only Some of You

Chapter 1 of 1

First two lines said to me during a drunken babble. Not written from my point of view.

Two rubberbands around your wrist,
They both tell me you are smart.
One reveals you were born to wish,
The other warns me of your tart.
Two rubberbands around your wrist,
Glide up and down my back.
One tenderly pleads for a passionate kiss,
The other reminds me to relax.
Two rubberbands around your wrist,
Always know exactly what to say.
One whispers honest beauty from within,
The other would rather swear all day.
Two rubberbands around your wrist,
Unleash my mind in a confusing whirl.
One of them is an intelligent woman,
The other is just a silly little girl.
