The night that Albus died

(Sung to The Night Chicago Died by Paper Lace)

Albus was on the top

Of the astronomy tower

With a young boy named Harry

After drinkin' some nasty stuff

In the dead of that evil night

At the highest point in the school

When Headmaster Dumbledore died

It wasn't much of a duel

When a man named Severus Snape

Came up with his billowing cape

He helped young Draco out

And now his loyalties we do doubt

I heard Minerva cry

I heard her scream the night that Albus died

Merlin what a night it really was

Merlin what a fight it really was

Severus Please

I heard Minerva cry

I heard her weep the night that Albus died

Merlin what a night the students saw

Merlin what a fight the students saw

Go Harry

And the sound of the battle rang

Through the halls of Hogwarts School

'Til the last of the Death Eater gang

Had been captured or escaped

There was shouting on the grounds

As Harry tried to take Snape down

And I asked Hagrid who said

That Albus really was dead

I heard Minerva cry

I heard her scream the night that Albus died

Merlin what a night it really was

Merlin what a fight it really was

Severus Please

I heard Minerva cry

I heard her weep the night that Albus died

Merlin what a night the students saw

Merlin what a fight the students saw

Go Harry

And when they all found out

The order they all came

And the students they all cried

And the phoenix he did sing

His song of deep mourning

Before he went away

The night that Albus died

The Night that Albus died

Merlin what a night the students saw

Merlin what a fight the students saw

Go Harry

The night that Albus died

The night that Albus died

Merlin what a night it really was

Merlin what a fight it really was

Severus Please

The night that Albus died

The night that Albus died

The night that Albus died
