

# Take Me

*by aturia*

Perhaps you have heard the words, "Take me" or have said them yourself a time or two, but what do these two words really mean?

## Take Me

*Chapter 1 of 1*

Perhaps you have heard the words, "Take me" or have said them yourself a time or two, but what do these two words really mean?

What can two simple words mean?

What can two simple words do?

Beyond the concept of,

"You want me and I want you."

Two simple words uttered,

Can mean something profound,

For these two simple words,

Seem to be renowned.

In bedrooms around the world,

The two simple words are said,

And bodies come together,

And clothing is shed.

But perhaps a second opinion,

Of these two simple words can be told,

That these two simple words,

Can be more valuable than gold!

You now hear me whisper  
These two simple words...  
"Take me!"...  
Take me into your arms,  
And into your embrace,  
Take me into your heart,  
So I may leave a trace.  
Take me with your laughter,  
As your sense of humor delights,  
Take me with your smile,  
And make my world alright.  
Take me with your integrity,  
Let your honesty ring true,  
Take me with your kindness,  
Show me all the nice things you do.  
Take me with your devotion,  
Be dedicated totally,  
Take me with your affection,  
Hug and hold me securely.  
Take me with your music,  
Melt me with melodies,  
Take me with your words,  
That so excite and tease.  
Take me on a journey,  
Through your joys and regrets,  
Take me on a voyage,  
To sail your soul's secrets.  
Take me with your eyes,  
Mentally undress all of me,  
Take me with your hands,  
Stroke my skin softly.  
Take me around your bed,  
In circles until dawn,  
Take me beneath your sheets,  
As I learn to turn you on.  
Take me with your lips,  
Kisses that sweetly seduce,  
Take me with abandon,  
Set us both free and loose.  
Take me with your passions,  
Let us burn in beautiful sin,  
Take me with your body,  
Over and over again.  
Take me as a lion,  
Wrestling his lioness in play,  
Take me as a hunter,  
Who carefully stalks his prey.

Take me on the floor,  
In a hurried frenzy of fire,  
Take me against the wall,  
When we're overcome by desire.  
Take me with gentleness,  
Caress me with a tender touch,  
Take me with your need,  
And tell me you want me that much.  
Take me with your love,  
Make me your only one,  
Take me and know me,  
In everything under the sun.  
Take me for all that I am,  
This is me undone and open wide,  
Take me in unlimited ways,  
And I shall never leave your side.  
And so these two simple words,  
Have come to mean so much more,  
Can you now understand,  
What they are truly meant for?
