

Shades of Gray

by Merlina Thalia

Nothing is ever black or white.

Shades of Gray

Chapter 1 of 1

Nothing is ever black or white.

A/N: This is a response to the notion (said to Harry by Sirius) that it isn't all just good or Death Eaters. Nothing is ever just one way. A special thanks to ladyinthecloak for the beta.

Shades of Gray

Nothing is ever

Just black or just white

Never is anything

All wrong or all right

Without an in between

There's no beginning or end

It's not cut and dry

All colors must blend

You won't find happiness

Without a little pain

When all hope is lost

There's still something to gain

Don't go left or go right

There's always another way

Nothing's just black or just white

But rather a shade of gray
