

Believe to Understand

by Merlina Thalia

The war is over.

Believe to Understand

Chapter 1 of 1

The war is over.

A/N: This poem is about Harry and his quest to destroy Lord Voldemort. Now that the war is over, he can finally rest. A special thanks to ladyinthecloak for the beta.

Believe to Understand

You may not always know the truth

You cope the best you can

You grasp for answers out of reach

You believe to understand

You see everything made of pain

Not what's right in front of you

Your nightmares hold you back

Your emotions showing through

Closure is what you crave

You want a clean new slate

You use your instincts as your guide

Not caring of your fate

You want the end of the road

An answer to your quest

Now it's done, you can let go

Your mind can finally rest
