No Dark Lording For Me

Chapter 1 of 1

Hermione is not quite truthful in a game of Truth or Dare.

Author's Note: Apologies to Shiv5468 and her MLC fic "A Law Onto Herself", from whence I got the concept of Hermione "Dark Lording".

"Come on, Hermione! It's your turn, truth or dare."

Hermione glared at Ron. "Truth, then." Stupid prat would probably ask if she fancied him. Good thing Veritaserum hadn't been introduced into this round.

"What's your most secret wish?" the redhead asked, grinning widely.

She was silent for a moment, flashes of sweeping black robes and a sexy, snarky voice flitting across her inner vision. 'Severus...' she thought, as she looked Ron in the eyes and said, recovering confidently, "World domination, of course." She tapped her lips with her forefinger. "But I'd be a benevolent dictator, no Dark Lording for me."
