*Chapter 1 of 1*

Sweet Torture Returned

~~~~~

She is my goddess, my mistress, all mine. She removes my bonds. My sweet torture has gone on long enough and now it is my turn to show her the pleasant agony that I have known tonight. She will beg for her own release before I've finished.

I flip her onto her back and revel in the sexual grunt that escapes her throat. I am on top of her, about to kiss her deeply, severely.

Her breathy groan of "Severusss..." hardens me again.

"Hermione," I growl.

"You're on... my chest... can't breathe... get off me."

And there goes the mood.

*This was originally written in April, when the lovely Ladyofthemasque and NotSoSainly were 'battling' 100-word smutlettes in which Severus was tied up. That began with Bound To Answer by LoTM and was highly enjoyable to watch, as the two posted back and forth.*

*Not quite sure how it never got posted, but I accidentally came across it today and felt the need to share.*

*I can only hope LoTM and NSS aren't offended by my continuation (imperfection reigning) of their very fun series of fics.*

*I am nothing, they are everything. (JKR of course, being more than any of us, having created and owning the rights to the characters we continue to play with)*
