

No Mystery

No Mystery

Chapter 1 of 1

A little harsh, but there you go.

Not an open book,
yet no mystery
if you had the brains (and balls)
to read between the lines.
You've read the cover
and you've got it figured out.
And keep thinking that, because
you're always right.
Read the last page first
That's all you'll get.
But don't start whining to me
when you want more.
It's sad, but if you
find this hard to follow (or swallow),
then you should just wait
for the fucking movie.
