A Kiss in 10

~~~~~

You

And I

Hand to hand

Then up my arms

They rest on my shoulders  
Warm, strong hands down my sides  
They come to rest at my hips  
Behind me, tickling my spine, up my back  
At my neck, into my hair, bringing me closer  
Your hands pull me to you in a gentle kiss

~~~~~

please leave me a review. I'm thinking about submitting this for publication and would really love some feedback.

After receiving feedback, I updated the poem a bit. Please tell me if this flows better or works better...

You

And I

Hand to hand

Then up my arms

They rest on my shoulders

Warm, strong fingers down my sides

Your hands rest lightly, holding my hips

Behind me, tickling my spine, up my back

At my neck, into my hair, bringing me closer

Your hands pull me towards you for a gentle kiss
