

Should have known

by Anijade

Instincts count for something

Should have known

Chapter 1 of 1

Instincts count for something

I thought there was something

I thought I had a chance

Must have been the light

Must have been the glow

I thought you were special

I thought there was a connection

Must have been my dream

Must have been a lie

I thought for once I would be different

I thought that once I would win

Must have been my heartbreak

Must have been a fool

I should have known the truth.
