

He Even Lost Dumbledore

I can honestly say that my song does fit the Podcast Filk challenge, even though I had no knowledge of said challenge (and I'd be really late submitting at this point), I simply work overnights at Wal-Mart and stocking shelves can be monotonous.

He Even Lost Dumbledore

Chapter 1 of 1

I can honestly say that my song does fit the Podcast Filk challenge, even though I had no knowledge of said challenge (and I'd be really late submitting at this point), I simply work overnights at Wal-Mart and stocking shelves can be monotonous.

Author's Notes: Be gentle, I got inspired and this is what happens after reading too much fan fiction- we all think we can write. With that in mind if you have never heard the song, "The Last Ten Years," as sung by Kenny Rogers you can find it here: [Kenny Rogers singing](#)

Disclaimer: As much as I like to kid myself, I could never own Harry Potter or be as lyrical as Kenny Rogers. But a girl can dream. . . . Also, these are the roses and chocolates due to my fantastic betas, the lovely Angel Mischa and Azure Anei; I figured the ladies would prefer e-flowers and e-chocolates as they last longer than the real thing.

Oh, the first time round,
the Marauders fought,
in a world where Darkness and chaos reigned from Voldemort.
A Fidelius Charm should have kept them safe,
but Pettigrew betrayed them all,
and the Potters fell.
The world watched as the Dark Lord seemed to vanish,
Defeated by a baby saved by love,
An' they waited for the day he'd be at Hogwarts

An' watched as he saved the Sorcerer stone.
He lost Fred Weasley, Sirius Black, and Dobby too.
He even lost Dumbledore, mhm.
In the last ten years, Hogwarts changed a bit,
A werewolf teacher, a centaur too, and Dolores Umbridge,
But the world beware, the Dark Lord's back you see,
and he seems to think that he should rule the Ministry.
The world watched Harry flying past a Horntail.
An' cheered for him when he rescued Ron and Gabrielle.
We wondered why the maze was taking longer,
Then we cried when he brought Diggory home.
He lost Remus, Mad-Eye Moody, Nymphadora Tonks.
He even lost Dumbledore, mhm.
House points won an' detentions served,
The Horcruxes hunt and lessons learned,
The final battle's next, and then a well deserved rest.
Death Eater raids, an' a traitor's death,
Pensieve memories while holding his breath
Because he's gotta die to be re-born—without Voldemort,
Without Voldemort.
Harry lost Beloved Hedwig, Colin Creevey, and Severus Snape,
Hell, he even lost Dumbledore.
Gonna miss you, Albus....
