Response to Southern Witch's drabble challenge: Your Birthday Meaning in HP Land

A/N: The rules follow the drabble.

I would like to thank Southern Witch for the quick beta reading.

Somewhere not very far from the hospital wing, Hogwarts.

"It's your fault."

"Of course it's not. You punched her. And me by the way. I'm going to have a black eye when we return from France."

"Oh, please, Poppy can take care of it with her eyes shut. And you earned it for having interfered and preventing me from killing that stupid cow, which will happen one way or another once I get my hands on her."

"Oh, I certainly could have let you deal with her, but I would have missed you terribly, alone for our honeymoon, while you were sent to Azkaban for at least 30 years, don't you think?"

"Humph."

"Hermione, what's gotten into your head to react like that? You knew she'd find a way to be there."

"Well, she ruined my wedding dress and my hair. I managed to make it look so lovely. You know how much time it took me to charm the butterflies?"

"Wait a minute, you kicked Molly Weasley and broke her jaw because of a dress and your hair?"

"NO!! I KICKED HER BECAUSE YOU WERE IN MY WAY TO STOP ME FROM MURDERING RITA SKEETER."

"DO NOT YELL AT ME. YOU'RE RIGHT. I SHOULDN'T HAVE INTERFERED, AND I'D ALREADY BE ENJOYING THE ROYAL SUITE THAT IS WAITING FOR US IN PARIS."

"I'M NOT YELLING AND I TOLD YOU IT WAS YOUR FAULT."

"Humph."
