Ho!Mione

Chapter 1 of 1

Hermione has changed a lot over the summer. In answer to the Ho!Mione Challenge. Warning: This is a very badly written story, and is a PARODY. That means that I've written it badly on purpose in order to point up the cliches in fandom that I don't like. Unfortunately, it probably contains very little humor.

Hermione had changed a lot over the summer. Her once bushy brown and boring hair was now sleek and long all the way down to her waste!-and black. She never used to wear makeup but now she does all the time, white on her face and black on her eyes, and red on her lips. She had blood droops painted on her fingernails and toes because she's a goth now. She was tired of being a goody two shoes before, and now she knows it all because everyone hated her and they loved Lavender and Pervarti and she felt invisible all the time. She only ever told Ginny about her problem because Ginny is her best friend and she and Hermione are very close and they love each other as friends (AN: No SLASH in my story! EW!)

Ginny told that Hermione needed to talk to Tonks because Tonks would know where to go to look hott, and Hermione knew it was true so she asked Tonks over at Sirius's house (AN: In my story, Sirius is alive!11!) to help her and Tonks said that she has to find what her style is. She had Hermione look at Muggle women and see what she likes on them and then Hermione saw a store called Hot Topic and went inside and found what she liked! And they were listening to The Stray Cats and she knew she liked punk music so she got punk music like Flogging Molly (OMG, Flogging Molly is so kewl because my older brother's friend listens to it and it sounds awesome, and he's hotter than Dan!) and Teegan and Sarah (Teegan is a kewl name! My brother's friend has a crush on her, but I think they are lesbians and that's not kewl so hahaha!) and she knew that to be a punk rocker, she had to listen to the music and look like one so she did!

She bought a lot of shirts and skirts from Hot Topic because they looked so cool with mesh and rips and safety pins, and Tonks showed her how to charm her hair to look straight and black and how to grow it longer when she wanted because she likes long hair (AN: Tonks is NOT Gay!) and Hermione wants long hair and short skirt and she needed knee high boots that were black leather but they were expensive so she used her magic outside of school and shrunk them and stole them because Goths don't care if you steal things and punk rockers are antisestablishmentarianisms and they don't care if they steal (But stealing is bad! I'm only having Mione steal for the story because...well, I can't tell you yet!). Then she bought makeup and learned to use it from Ginny because Ginny likes to go out at night without her brothers because they're way overprotective (Like my brother! Geez!) and didn't like her to go to Knockturn Alley at night but she did all the time and had sex with Draco Malfoy so Ginny took Hermione with her and met with Draco and Blaze Zamboni.

At first Draco was all, "what are you doing here, Mudblood?" and Blaze was like "yeah because we don't want you're kind here!"

But Ginny said, "she's my friend and I want her with me because she wants to have sex with Blaze!"

"So that's true, Mudblood?" Draco said and Hermione answered yes and Draco threw her towards Blasé and Blaze was like "yeah, I'll have sex with her." So he gave her wine to drink but it didn't taste good but Hermione drank it anyway and then Blaze pushed her down on the bed (AN: THEY were in a hotel room when they met in that bad place in Dagon Alley) and pulled her thong off and then pushed himself in side of her and had sex with her for the first time and it hurt, but Hermione was glad because it

ment that she wasn't a goody two shoes any more and now she could be a bad girl like Paravati and Lavender only better becuz she was a punk and a goth and the other girls wernt like that. She also decided that she liked green and silver better than red and gold becuz she was sleeping with a slytherne and she liked that haouse better too than Griffindore but she was now sitting on the train going back to school and shewanted to see Harry and Ron so that they cold see her new look and everything. She hoped they didn't hate it!

But then they were pushing the door to her compartment oopen and she held her breth becuz she was afraid that they wouldn't like her new look, but they did! Harry walked in and he shouted

"Wow!"

and Hermione was all, "I know!"

and Harry was like, "Yeah?"

And Hermione said, "Totally!"

And then Ron was all, "Bloody hell Hermione!" becuz he didn't know what else to say (An: I don't like Ron! LOOL!)

"I don't want to be called Hermione any more," Hermione said. "I want you to call me Maya now becuz it's prettier."

"I like Maya," Harry told her And I think it's prettier, to."

Ron looked like he wanted to say something but then Blaze Zambini and Draco walked in and looked upset.

"Stay away from Maya, Malfoy!" Ron said when he pulled out his wand.

"Youd better stay away from her!" Blasé answered, hexing Ron.

"OMG, I don't believe you did that!" Maya yelled, pushing them both out of the compartment. "Ron's my best friend, and you can't hurt him! I'm never talking to you again, Blaize Zambonini!"

Maya was happy when Blaze looked sad when she pushed him out of the compartment because she knew that he would miss having sex with her but she didn't want to have sex with him any more, not when she was going tback to School!" She was going to not waist time with boys any more, but shewas going to have a man now! She was going to have sex with Professor Nape and he was going to fall in love with her! But she couldn't let Harry and Ron know becuz they wouldn't understand and stuff like that, so she kept that to herself when they went into the Grate Hall of Hogwards and they saw professor snape in the table at the front where all the teachers sat and stuff and Hermione smiled at him and e glared at her back because he doestn' smile or anything like that. But she knew that he was secretly attracted to her because she saw him watching her butt last year when she was leaning over her caldrone.

She saw him the next day and he was like, dedudct minusing points and stuff like that becauz he's a meanie head but he was really nice underneath, Maya new becuz he worked for the Order Of The Penes, but she knew that he had to hide his true feelings under his mean stuff and she didn't get hurt when he deducted pints becuz she wasn't wearing her uniform.

Instead, she was wearing some really tight black jeans and pink converse seakers with silver laces and a mesh shirt with a hot pink tank top underneath it and it had the Supergirl symbol on it in silver and she put silver streaks in her hair that morning and silver sparkley stuff on her eyes and lot s of silver jewelry and bracelettes that made lots of noise when she moved. And snape was all, "Fifty points from griffindore!" and Hermione was like "but that scks, wy? And Snape was all, "Becuze you stupid little girl your not wearing your unoform and now you have detention." (AN: I want detention with Snape! Alan rickmane is the hawtness!!!!!!)

So Maya wasn't to upset because she knew that she cud have sex with Snape now and he woud teach her how to give a blow job becuz Balze didn't ever do that band he never ewent down on maya either because he didn't like that kind of sex, he only wanted to shove his thing up her butt all the TIME! And sall she could thing of in Professor Mcongalls class was Snape's detention and how he was going to have sex with her becuz she was pretty, but before she went she changed into Slitherin colors so that he would be impressed and he was. He took her into his private room and it had green and silver ALL OVER and Maya knew he was rich becuz every thing looked really expensive like it cost al lot of money. He had big, huge chairs and a sofa thatall have green velvet on them and she thought she would want to have sex on one becus it would feel soft on her butt all the time but he took her into his room and his bed was HUGE and big and dark and had green velvet on it too and silver on the walls, like real silver on the walls but it might be paint, she doesn't know and she took off her clothes and Snape thought that she looked really hot in her thong and bra that both matched. They were green and silver and lacy and he wanted to rip them all off soon and then have sex with her but he was affrade of scaring her so he took off his robe instead.

It had so many buttons! Maya thought when he started to un button his robes and jacket and vest and pants and underwear. They all had buttons all over them! And his boots even had buttons up the sides that he had to un button!

"Have you ever had sex before?" Snape asked her.

"With Blaze, but only in my butt hole/" (AN: Maya has to be a virgin becuz Sev is the only one who can take her virginity!)

Sev stopped a bit and started to stroke Maya's hair and he talked to her about how beautiful she was and then he kissed her breasts and took off her bra and kissed them some more until Maya started to moan! She shouted "Yeah! Oh yeah! That feels so good Sevvie!"

And then when she put her hands in his hair, she noticed that it was soft and silky, not greasy at all! Harry and Ron now had to apologize about calling him greasy all the time! Becuz he wasn't greasy, he was perfect and beatuful and he wasn't a bat!

Then he pushed himself into her and it hurt a LOT becuz Maya was a virgine and his pee-pee was BIG but it didn't hurt so bad when he kept moving inside her Virginia and he said he would make her CUM and that he would CUM to and they would have a baby together at the end of the year becuz he was going to get pregnate! So then she CUMMED on him like she was peeing only it was thicker and it got on his legs but he didn't care be cause he cummed to with her so that he could get pregnate and have their babby be cause Maya couldn't have it be caus then Professor Dumbbore would be mad at Sevvie for getting Maya pregnate. This way they could still have sex all the time!

THE END

AN: Plz read/review!!!!11!! I need reviews if I wand to rite again!!!!11! Thanks to plad pooka nad sotherrn witch 69 (69! Ha!) forgiving me the gidelines of this sorty!

Real author's note: Oy. That was the most horrific thing I have ever written in my life. I followed these guidelines:

Plot: Hermione isn't that little shy bookworm and longer. She's had a makeover and she is hot! And, she has all the correct equipment to become the new improved Makeover Ho!Mione. And who does she turn to to learn the "ways of the flesh" now that she's a true ho? Why, our favorite SexGod!Slytherin Potions Master, of course!

Rules: 1) It can be as long as you want as long as it's at least 1,000 words. 2) Must be labeled as parody and A/U and be submitted under the proper challenge category at Ashwinder. They are making a special folder for us, so please submit them there. 3) All intentional errors and things that do not follow Sycophant Hex's submission standards (such as misspelled words and A/N's in the text) must be noted in an A/N as being intentional and part of the parody. 4) All other Sycophant Hex standards still apply, so it's probably a good idea to have a beta look over it. Okay, the fun stuff! 5) Hermione is a self-absorbed ho and Severus is a pimp daddy sex god! 6) We are trying to poke fun of fandom cliches, so make fun of as many as possible! The more, the better! :-D 7) Hermione's lurve interest should be Severus, but if you want to have someone else *cough* Draco *cough* join in the fun, that's okay, too. ;-)

As you can see, I didn't have Draco join in the fun, but Blaise Zabini (whose name was NEVER spelled correctly in this story except just now) did get to make an appearance. It took a lot of strength to not turn him into a pale Italian girl who was also angsty and looking for a new "look". I also omitted the dreaded "Curves In All The Right Places" cliché. Don't know why, I really shouldn't have, but I did.

I really need to point out my "deliberate mistakes" here, so I'll do that by asking you to re-read the story. Everything is a deliberate mistake. There are certainly words that are spelled correctly (be cause, to, every thing), but that were used incorrectly. I deliberately created run-on sentences and superfluous dialogue as well as punctuation errors and one random POV switch that was really the hardest part of this story for me. My favorite deliberate mistake is this one: *He took her into his private room and it had green and silver ALL OVER and Maya knew he was rich becuz every thing looked really expensive like it cost al lot of money.*

Most redundant sentence ever? You be the judge.

Also? Please don't tell me that I know nothing about being either Gothic or Punk. Really, I'm accentuating the stereotypes that perpetuate the Ho!Mione makeover stories, and it's something that particularly annoys me, being that I do love the Punk genre, though I am not Gothic in any sense of the word. Also? The entire idea of any of the Potter kids turning Gothic is insane to me. How would anyone know? They already wear black all the time! If they want to "rebel" (becuz being gawth is so rebellious!!11!), they'll become an accountant.

Now *that's* kinky!
