## The Men Who Knew Too Much

*Chapter 1 of 1*

Harry and Draco sneak out for a bit of fun and find so much more.

“Did you bring the Cloak?” Draco whispered as he spotted Harry climbing through the portrait.

Harry grunted his response and followed closely behind Draco all the way to the dungeons, both of them careful not to make much noise.

“Can’t believe I let you talk me into this,” Harry muttered.

Even through the dimness, Harry could see Draco roll his eyes. “Come on. It was practically your idea.”

“*My*—it was *not*—”

He didn’t get any more out, as Draco halted suddenly, grabbing his tie and pulling, backing them up against a wall. “Shut up and fuck me.”

“No problem.”

“Ah, yes, Harry... God, that’s good. Right there...”

Harry pinned Draco harder to the wall and thrust faster. Draco cried out, and Harry whispered, “Shhh... Want us to get caught?” then took the opportunity to lick a patch of skin below Draco’s ear.

Draco let out a shaky moan in response. “Harder...”

Harry granted his request for several pleasurable minutes—until...

“Draco... are you purring?”

“What? No... Ungh, don’t stop...”

“You are... I can hear y—”

“Fuck it! 'M not purring... But if you keep... that—uh, God...”

*Meow!*

"What the..." Draco's eyes widened; Harry's hips stilled.

"Oh, fuck, no."

Harry was the first to break the horrified silence after they'd both run as far from their dungeon corner as they could. "Draco, he was... She—"

Draco shook his head and clenched his eyelids together; Harry knew he was trying to wipe the image from his mind. "Not one word. Just... no."

Harry had to laugh or cry, and after the first chuckle, he couldn't stop. Tears rolled down his cheeks as he clutched his knees.

"It is *not* funny."

"Oh, God!" Harry choked. "I always knew there had to be a reason Filch loved that fucking cat so much!"

For HermioneWeasley, who prompted me to show the real reason that Filch and Mrs Norris are so close, then dared me to include Harry/Draco smut.
